Penultimate Computer Science student with Full-Stack and Machine Learning experience, having **won 2 hackathons** through strong innovation and teamwork. **Technical Executive** at a **Google-backed community of 140+ members**, **lead organiser** of an international programming contest, with **startup experience** in New Zealand, and passionate about building impactful projects. Actively seeking **software engineering or technical internships** where I can apply my skills to real-world problems.

EDUCATION & AWARDS

University of Auckland

Bachelor of Science — Computer Science (2nd Year)

March 2026 – Nov 2027 (Expected)

Auckland, New Zealand

- **Awards & Activities:** **1st Place** in DEVS x SESA 2026 Beginners Hackathon; **Dual Sponsor Track Winner** in WEB3UOA Hackathon; Class Representative
- **Relevant Courses:** Data Structures & Algorithms, Object-Oriented Programming, Software Methodologies, Discrete Math

Massey University

Diploma in Science and Technology — DipScTech | **GPA: 8.7/9.0 (A+ Average)**

Feb 2025 – Nov 2025

Auckland, New Zealand

- **Awards & Activities:** **Most Studious Student 2025**; “**Excelling**” **Academic Progress** (both semesters); Class Representative;
- **Relevant Courses:** Calculus, Linear Algebra, Introduction to Programming, Statistical Foundations

Indian Institute of Technology, Mandi (IIT Mandi x Masai School)

Minor in Artificial Intelligence & Data Science

Aug 2025 – May 2026 (Expected)

Remote — Mandi, India

- **Awards & Activities:** **Youth Solves for India Contest Winner**; **Team Lead** for 2 Hackathons
- **Relevant Courses:** Machine Learning Fundamentals, Python for Data Science, Applied Statistics

WORK EXPERIENCE

Digital & Design Executive

Capital Media Partners Limited | NZ Startup | Part-time, Hybrid

Nov 2025 – Mar 2026

Auckland, New Zealand

- Built the **website** using HTML5, Tailwind CSS, and JavaScript for a startup serving **300+ NZ businesses**, optimising frontend architecture and user flows across client-facing dashboards, writing **unit tests** and conducting **peer reviews** to ensure reliability.
- Automated Excel data sync using Python for all **300+ business records** across **18 industries** and **60 categories**, saving **40+ hours** of manual data entry and streamlining data management.
- Led digital marketing strategies scaling to **535+ posts** across platforms and designed regional Wall Planners delivering **365-day brand visibility**, driving consistent brand exposure across Auckland.

PROJECTS

L2Earn | Next.js, React, TypeScript, Tailwind CSS, wagmi, viem, EAS, ENS, dNZD | [Source Code](#)

Apr 2026

- Won **Dual Sponsor Track** (Avalanche and NewMoney) at WEB3UOA Hackathon by engineering wallet functionality using **wagmi** and **viem**, including master-to-customer wallet transfers settling dNZD stablecoin rewards on Base Sepolia.
- Built the full frontend with **MetaMask auth**, **ENS** identity, and **EAS** certificates for a **learn-to-earn platform** where humans and AI agents earn NFT credentials, delivered within a 48-hour sprint.

StarGaze | React, TypeScript, Vite, Tailwind CSS, Framer Motion | [Source Code](#)

Apr 2026

- Won **1st Place** at DEVS x SESA 2026 Beginners Hackathon by **leading frontend development**, integrating Open-Meteo, wheretheiss.at, and OpenStreetMap Nominatim APIs into a single **stargazing planning app** within a 48-hour sprint.
- Optimised **cross-device responsiveness** and handled data simulation for cloud cover, light pollution, and live ISS tracking across the frontend.

Civic Connect | TypeScript, React, Vite, HTML5, CSS3, Gemini API, Google Maps API | [Source Code](#)

Jan 2026

- Won the **Youth Solves for India Contest** by **leading full-stack development** of an AI-powered **civic platform**, handling the majority of the work within a 2-day sprint.
- Shipped Gemini-powered issue auto-categorisation, real-time Google Maps visualisation, user auth, issue tracking, and admin dashboards end-to-end.

Route Continuity Gap Detector | Python, Streamlit, Shapely, scikit-learn, Folium | [Source Code](#)

Feb 2026

- Led the majority of development on a **geospatial QA tool** that detects road-network endpoint gaps using **Shapely** geometry checks and an unsupervised **IsolationForest** ML model, built within a 24-hour Hackathon sprint.
- Generated automated error reports and interactive map visualisations using **Folium** and **Streamlit**, eliminating manual map inspection for instant road network auditing.

TECHNICAL SKILLS & INTERESTS

Languages/Tools: Python, Java, JavaScript, TypeScript, C, C++, SQL, HTML/CSS, R, Git, Agile/Scrum

Libraries/Frameworks: React, Next.js, FastAPI, Streamlit, Pandas, NumPy, scikit-learn, TensorFlow, Shapely, Folium

AI & ML: Supervised & Unsupervised Learning, Neural Networks, Ensemble Methods, Anomaly Detection

Infrastructure: MongoDB, PostgreSQL, Firebase, Supabase, Google Cloud, Google Maps API, Gemini API, Anthropic API

Interests: Badminton, Swimming, Drawing, Web Development

VOLUNTEER & LEADERSHIP

Technical Executive <i>Google Developer Groups on Campus, University of Auckland</i>	Mar 2026 – Present <i>Auckland, New Zealand</i>
- Leading technical workshops and hackathons for a 180+ member Google-backed student developer community, designing event content across AI, web development, and Google technologies, mentoring members, and contributing to club website development. - Serving as lead organiser for ALLUNI 2026, an international programming contest spanning 23 clubs across 9 cities, and as a technical speaker at workshops and hackathons, delivering an NFC workshop to 40+ attendees, receiving excellent feedback.	
TalkCampus Ambassador <i>TalkLife Freelance, Remote</i>	Aug 2025 – Present <i>Auckland, New Zealand</i>
Drive mental health platform adoption among university students through targeted marketing campaigns and peer support as a Certified TalkCampus Buddy, increasing platform awareness across campus.	

COMPETITIONS & ACHIEVEMENTS

Regional Finalist – Wharton Global High School Investment Competition <i>The Wharton School</i>	Apr 2021
Ranked Top 10 in Region 2 out of 972 global teams; developed a data-driven long-term investment portfolio with sector analysis and risk-adjusted projections.	
Grand Finale Qualifier – Toycathon 2021 <i>Ministry of Education, Govt. of India</i>	Jun 2021
Advanced to the national finals of a government-led innovation competition by co-developing Yatree, an interactive tourism app demo promoting local travel.	
HTML Coding Camp <i>HTML5, CSS, Mentoring</i>	Oct 2021
Co-organised and hosted an interactive coding camp teaching HTML and CSS basics to 30+ students, receiving excellent feedback from faculty.	
Harvard Model United Nations Dubai 2022 <i>Legal Committee</i>	Jun 2022
Represented Algeria in the Legal Committee; strengthened public speaking, diplomacy, and resolution-drafting at a 4-day international conference.
